The screenshot shows the website for the Smart Micro-Creation Device Center at NCHU Engineering College. At the top, there is a navigation bar with the college logo, the name '國立中興大學 工學院', and language options for '中文' and 'English'. Below this is a menu with '學生', '校友', '教師', and 'FB 粉絲團'. A banner for the '2015 Summer Internship Program for International Students' features a large group photo of students. The main content area has a breadcrumb trail: '研發中心 > 智慧微創器械中心'. A sidebar on the left lists various research centers, with '智慧微創器械中心' highlighted. The main text area contains a placeholder box and a list of five goals for the center, such as integrating faculty and researchers, combining resources with medical systems, and developing a regional micro-creation technology base.
