Business Tax Explanation	 Business tax is a consumption tax borne by the buyer; therefore, when pricing, the 5% business tax amount should be included in the service price. If the business tax amount is less than NTD 1, round it to the nearest whole number. According to the Ministry of Finance's order No. 10804666690 dated February 26, 2020, the business tax levied on income obtained from industry-academia cooperation by schools should be handled according to the "Regulations for Tax Exemption and Levies of Business Tax for Various Income Obtained by Colleges and Universities from Industry-Academia Cooperation," where research fees are exempt from tax if they meet the following criteria: The school establishes a research project with a cooperating organization as defined in the "Implementation Regulations for Industry-Academia Cooperation of Colleges and Universities" (including government agencies, enterprises, private organizations, and academic research institutions), or the school executes a scientific research development project according to the "Regulations on the Ownership and Utilization of Government Scientific Research and Development Results," establishing a research project with cooperating enterprises, involving the input of human and material resources in the research field. The various R&D and application matters agreed upon in the research project or contract (for example: material exchanges, testing and inspection, technical services, consulting services generated during the R&D process, or agreed-upon R&D results samples to be provided upon project completion, or agreed-upon technical services and consulting services regarding the specific results of the research project upon completion) regarding the ownership and utilization of R&D results and income.
